

Technical Product Manager

Warsaw, Poland

artem_tpm@protonmail.com · [linkedin.com/in/artem-zheleznyakov](https://www.linkedin.com/in/artem-zheleznyakov)

IT professional with over 20 years of experience, transitioning from Network Engineer to Delivery Manager in a global software company. Skilled in navigating diverse international environments, with a strong understanding of cross-cultural communication. A dedicated team player, consistently delivering high-quality results with responsibility and precision in dynamic environments.

SIGNATURE ACHIEVEMENT

Operational CRM Platform — Back-Office Automation for Live-Ops Gaming

Owned the end-to-end product for a back-office CRM system supporting live operations across a mobile gaming organization, from 2017 through its evolution from a single monolithic platform into a distributed model adopted by 10+ independent studios. Defined the core configuration architecture — UI/UX for configuration modules, file structure, and asset management. Stayed on as owner for one of the largest studios post-split while supporting other teams through onboarding.

EXPERIENCE

Technical Product Manager — Playtika

Oct 2017 – Present

Own product vision and backlog for a global gaming company — translating stakeholder needs into user stories, running agile ceremonies, and validating delivery against acceptance criteria.

IT Manager — Vodafone / Aricent

Dec 2012 – Jun 2016

Managed a team of 7 and 320+ telecom connections across internal Vodafone UK projects — from ICT budget planning and vendor negotiation to network security and crisis management.

Senior System Engineer — Vodafone / Aricent

Jul 2011 – Dec 2012

Delivered VoIP and network infrastructure across UK, France, and Denmark branches, supporting 300+ end users alongside hardware procurement and top-management SLA support.

Senior Systems Engineer — Aricent

May 2007 – Jul 2011

Administered Windows and UNIX/Linux server environments, Exchange Server, and enterprise networking infrastructure for global clients.

TECHNICAL FOUNDATION

Owned end-to-end IT infrastructure for a 200+ employee branch office: network operations (switches, routers, firewalls, wireless), systems administration (bare-metal setup, Windows Exchange and Unix mail infrastructure, backups), telephony (VoIP and internal telephone network), and physical/information security.

PRODUCT COMPLIANCE & LEGAL ALIGNMENT

Partnered with legal teams on: data protection, cross-border data transfer, SDK/third-party software vetting, user input moderation, GDPR compliance, age compliance, mobile app store (Apple/Google) compliance, and user account/data deletion flows.

AI-BUILT PROTOTYPES

Marketing campaign prototype

End-to-end advertising campaign concept for a real estate use case, built using AI tools.

Website prototypes

Multiple websites designed and built using AI-assisted design and development tools.

EDUCATION

Master of Computer Science

Vinnitsia National Technical University, Ukraine · 2002–2007

Master Degree in Electrical Engineering

Vinnitsia National Technical University, Ukraine · 2021–2022
